Re: Status of Project, Staker Paving and Construction, Keigley Quarry, M/049/001, Utah  
County, Utah

Dear Mr. Forrest:

On September 4, 2001, you contacted our office and spoke with our Engineering Technician, Joelle Burns. You informed Ms. Burns that in March, Staker Paving had transferred the Keigley property and permit, etc. to U. S. Aggregate. You stated that you thought the paperwork had all been completed.

Ms. Burns informed you that we had not received a permit transfer for this project. You were going to check into the situation and get back to us as to what was happening. You told Ms. Burns that you did not know who the contact for U.S. Aggregate was, but that Corky Gravis (sp) of Monroc may be involved.

In order to relieve Staker Paving and Construction from continued mining and reclamation responsibility, permit fees, annual reports, etc. for the Keigley Quarry, an official transfer of the Large Mining Operations permit must be submitted and approved. The new company will have to submit and receive Division approval of a new Reclamation Contract and surety bond, before we could return the existing bond to Staker Paving, or release Staker Paving from mining and reclamation responsibility of the site.

We have not received any further communication from you regarding this matter. Please advise us within the next 10 days as to the status of the Keigley Quarry Project. If you cannot

meet this time frame, or if you have any questions regarding this request, please contact me at (801) 538-5286, or Lynn Kunzler at (801) 538-5310. Thank you for your help in keeping us updated on the status of this mining project.

Sincerely,
